CARE PLUS
SOLUTIONS, INC.

A TRACK RECORD OF EXCELLENCE

“THE BIRTH OF A NOTION”

Care Plus Solutions' history dates back to April 27, 1971, in the conference room of The Alcoholism Counsel of Greater Los Angeles. Here, the founder of Care Plus Solutions, Inc. (then known as Donald Sandin & Associates, Inc.), Donald Sandin, among other professionals in the "Occupational Alcoholism Program" instituted the organization now known as EAPA (Employee Assistance Professionals Association). Donald was an Executive Committee member, and was an institutional force in the birth of the field of Employee Assistance.

Since the inception of Donald Sandin & Associates in 1973, the field of Employee Assistance has expanded and flourished. In 1997, Donald's historic company was purchased by Robert Baldino, who had worked under Mr. Sandin for many years. Since this transition, Care Plus Solutions has received local and national awards for their quality from such organizations as the NJ Psychological Association, Institute of Health and Productivity Management (IHPM) and the Employee Assistance Professionals Association (EAPA).

Over the course of the company's 46 year history, their brand has remained firmly rooted in the rich history of the EAP field, never losing sight of the fundamental purpose of the EAP; delivering personal and quality services to those in need. It is fair to say that Care Plus Solutions is the gold standard in the field of Employee Assistance.

"Care Plus Solutions - Employee/Management Assistance Program (EAP)/ (MAP) has been an excellent resource for me over the last ten years resolving complex employee issues. The staff is experienced, professional and prompt with their responses. They save lives and are cost effective to the organization."

Curt Bux
Manager, Labor Relations
PSEG

"The Mid-Atlantic Employers' Association (MEA) has worked with Care Plus Solutions for nearly 15 years. Our valued and trusted partnership has afforded many of our member companies the opportunity to receive quality Employee and Management Assistance Program services. Their seasoned staff clinicians are experienced in both business and behavioral health. They know the needs of the workplace and have successfully assisted HR managers and supervisors in responding to complex and sensitive workplace issues."

Janie Dehlert
Manager, Broker Relations/Education
Flexible Benefits Plans, Inc.

"Care Plus Solutions' professionals have been an asset to our IBEW membership. We couldn't ask any more of their staff. They have been totally responsive to the needs of our members. I commend them on what they do and how they handle awkward situations, such as balancing family, union, and management."

Chip Gerrity
President IBEW
IBEW Local 94

"I have had several employee issues that Care Plus Solutions (CPS) has provided assistance with. CPS professionals have worked on covering a variety of EAP situations and have demonstrated the highest levels of expertise, integrity and commitment. CPS professionals follow through yielding results that have exceeded expectations. If you find yourself in need of EAP services either as a business leader or on an organization wide basis or personally for a situation in your life, Care Plus Solutions should be your first call."
